*Discovery Flight: A 30-45 minute introductory flight experience with a LIFT Certificated Flight Instructor (CFI) in our four-seat single engine Diamond DA40NG aircraft. The flight, which departs from the Indianapolis International Airport, will allow the rider to learn about the basics of flying a training aircraft and see some great views from 3,000 feet up!

**LIFT Lab: The LIFT Academy LIFT Lab is a mobile virtual reality flight simulation experience that offers the opportunity to take flight in a Diamond DA42 twin-engine aircraft. The experience begins with a brief tutorial on maneuvering the aircraft before letting the user take the yoke to fly a course over Lake Tahoe before landing the DA42 on the runway. The LIFT Lab made its debut at EAA Airventure, one of the largest airshows in the world, in July of 2018. The LIFT Lab brings the excitement of aviation to the general public by giving individuals their first taste of flying through virtual reality.
